

Is your Workers Compensation Insurance Program working for YOU?

These Workers Compensation Insurance Programs have returned an average of 20% of your premium each year.*

Programs that work hard for you - and for your employees.

We don't have to tell you how tough it is to find high-quality Workers Compensation Insurance that's also affordable. Fortunately, relief is as close as your association membership. With these two Workers Compensation Insurance Programs, provided by National Air Transportation Association and Independent Fixed Base Operators Association, you can:

- Save money thanks to highly-competitive rates.
- Protect your employees with coverage from an A.M. Best rated A or better insurance carrier.
- Enjoy an annual Good Experience Return based on group performance.

Expect a return on your Workers Compensation Insurance premiums.*

Since 1975, the average Good Experience Return has exceeded 20% of the premium paid by participating members, performance that beats U.S. Treasury Certificates, bonds, and even the best blue chips on Wall Street.*Think of it as an annual signing bonus for insurance you're already required to have.

Although Good Experience Returns can't be guaranteed, we're confident you'll like the odds of adding those funds to your operating profit each year. And, even if we experience an unusual loss, you'll never pay more than your policy premium.

Of course, with these Programs you'll also receive more than a share of the profits, your employees also receive protection you can count on, from organizations you can trust - NATA & IFBOA.

Put our Workers Compensation Insurance Programs to work for you.

To determine whether your company is eligible to participate in these Workers Compensation Insurance Programs, ask your insurance broker for quotes. Brokers can obtain more information by visiting us online or by calling our Program Administrator, Katy Hodge, at (720) 746-3267.

Note that while these Programs are available in most states, they cannot be written in North Dakota, Ohio, Washington or Wyoming. Participation in these programs is also subject to underwriting acceptability.

* AirSure Limited has been the Program Administrator of the NATA Program since 1975 with the exception of 2012-2015 and the IFBOA Program since its inception in 2011. Please note that Good Experience Returns are not guaranteed.
